

The Sussex Warren SHRM Chapter (SWHRMA) offers an in transition group called Sussex Warren In Transition (SWIT). This group is comprised of HR professionals who are looking for positions within the Human Resource Industry. SHRM Nat'l Membership is required and primary membership to our chapter is not required but strongly recommended. There is no fee to join this group.

Meetings are held monthly and typically precede the monthly chapter meetings. Therefore, they are held at the Wyndham Garden Hotel, Mt. Olive, NJ @ 4:30pm. Topics covered may include, interviewing, networking, sourcing job leads, resume writing, cover letters, interview preparation, etc. A yahoo group has been designated for this group where job leads are fed as well as pertinent job search information.

To view positions go to: http://jobs.shrm.org/home/index.cfm?site_id=1612 or click: Find an HR Job! SHRM National Job Seeker Site on the Career Center Job Seeker Page.

SHRM Nat'l offers a "Transitioning" membership program for individuals who have been downsized. The individual must have an "active" SHRM membership account, or must request the membership extension within a 3 month period from which their membership account had expired. This benefit is a one-time opportunity to extend your membership for up to one full year with complete benefits remaining in tact-at no cost. SHRM believes this continued affiliation to our loyal members will help transitioning members stay current on the issues impacting the HR profession and provide them with the needed resources to assist them in their job search.

All you have to do is contact the Member Care Department by phone at (800) 283-7476 or apply for Transitioning Membership at: <http://www.shrm.org/about/membership/transitioning/Pages>

Attendance to Chapter meetings following SWIT Meetings are not required but encouraged. The in transition rate applies to those individuals who are not gainfully employed in the HR field. The rate is \$20.00. This is a \$10.00 discount from the regular monthly rate.
